

ANCONA SINKING IS CAUSE OF SENSATION AMONG THE OFFICIALS

WASHINGTON IS INTERESTED IN
DETAILS OF ATTACK ON
OCEAN LINER.

BELIEVE MANY PASSENGERS LOST

Reports On Number of Rescued Vary
—Many Shots Were
Fired.

Washington, Nov. 10 — Two Italian-Americans, Mrs. Francesca Lamura and an infant, sailed from Naples on the Ancona, according to American Consul White, who cables that it is verbally reported that 270 persons were saved.

(Associated Press)
Rome, Italy, Nov. 10—Ancona, the Italian liner sunk in the Mediterranean yesterday by an Austrian submarine, had on board 83 first class passengers, including Prince Cassano Zucchi, 60 second cabin passengers, 339 in the steerage and crew of 160.

It is said that a hundred shells were fired into the Ancona before she was torpedoed. Latest reports say that 324 survivors, a number of whom were injured, have been accounted for.

Say 300 Were Drowned
London—A Lloyd's Buzza dispatch says that 300 persons on the Anconia were drowned, mostly emigrant women and children, and that 130 survivors have reached Bizerta.

Some Land at Malta,
Malta, Nov. 10—Forty-one members of the crew of the Ancona and four of her passengers have landed here.

Favorite of Singers.
New York, Nov. 10—The Ancona was a favorite steamer with opera singers and musicians coming to this country, but the New York officials do not believe there were any singers aboard her at the time of the sinking. The report that Tito Ruffo, baritone, was a passenger, has been discredited in a message from his brother in Chicago.

Washington Aroused.
Washington, Nov. 10—The reports of the sinking of the Ancona created a sensation in official circles in Washington. Should it develop that any Americans lost their lives and that the steamer was torpedoed without warning, President Wilson will probably demand of Austria a disavowal of the act, reparation for the lives lost and assurances that there will be no repetition.

Attempted to Escape
A dispatch from Berlin says the Ancona attempted to escape, consequently the Austrian submarine was forced to use her guns.

Rome, Nov. 10—News reached Rome that the Italian liner Ancona, a steamer of 8,210 tons, which sailed from Genoa a few days ago with 339 passengers in the steerage and a large number of first-class passengers, has been sunk in mid-Atlantic.

One hundred lives are reported lost. Details of the disaster are meager, and confined to the announcement of the Italian ministry of marine that the vessel has been lost.

The loss of life may have been infinitely greater than at first reported, as the ocean lane plied by the Ancona between New York, Philadelphia, Genoa and Naples is not greatly traveled at this time of the year and ships responding to the Ancona's signals of distress would be compelled to steam for many miles before reaching her. While the cause of the disaster is shrouded in mystery, it is believed in Rome that the sinking was the work of a German submarine.

Prairieville Store Closed; Proprietor Has Not Been Seen

Sheriff Has Levied On Stock
Fixtures To Satisfy
Creditors

The doors of the Lincoln store in Prairieville have been closed since a week ago Saturday night and O. E. Bardill, proprietor, has not been around the store since then. Creditors of Mr. Bardill have filed their claims and three executions have been gotten out, while Sheriff Phillips has made a levy on the stock and fixtures of the store to satisfy the claims. One of the creditors is the Sterling Wholesale Grocery who has levied on the stock of goods, while Maurice Breneman has levied on all the fixtures to satisfy his claim for money loaned. The stock and fixtures will be sold at sheriff's sale on Tuesday afternoon, Nov. 16, at 2 p. m.

NOT MANY TO TAKE EXAMINATION NOW

BUT FEW INQUIRIES HAVE BEEN
RECEIVED FROM CANDIDATES.

The quarterly teachers' examination will be held tomorrow and Friday at the office of the county superintendent at the court house. The questions and instructions have been received from the state examining board. The indications are that few will take the examination now, there having been few inquiries concerning it. The next examination will not be held until March. Under the new law all teachers before they are eligible to teach in the state must hold a teacher's certificate. In case of emergency the county superintendent may grant an emergency certificate, but at the first examination following the issuing of such certificate the teacher holding it must take the examination.

MATTER OF BONDING COUNTY FOR ROADS BEFORE SUPERVISORS

COMMITTEE WILL INVESTIGATE
AND REPORT AT DECEMBER MEETING.

TO BUILD ALL ROADS AT ONCE

Advisability of Scheme Will Be Considered—Estimates Received.

At the special meeting of the board of supervisors held this afternoon the estimates of the cost of construction of various types of roads, prepared by the state highway commission, were read. The costs vary on the width of the road to be built and the kind of material to be used in construction. On the motion of Supervisor Mannion it was voted by the board to publish the report of the state commission in the various papers of the county.

Supervisor J. M. Sterling of Dixon then offered a resolution whereby the question of bonding the county for some specified sum to improve all the main roads of the county at once be taken up; that the chairman of the board appoint a committee of five, the chairman being one of the members of said committee, to ascertain the number of miles of road that should be improved and the kind of material that they considered practical and submit to the voters the question of bonding the county in the sum necessary to construct the roads either at a special or regular election in the early spring. The resolution was adopted by the board.

The personnel of this committee is: J. M. Sterling, Dixon; Ira J. Trostie, China; Wm. Bucher, Sublette; E. J. Mannion, Harmon and Morris Cook, Alto.

As the meeting had been called for the purpose of hearing the report of the state highway commission and this having been disposed of the board adjourned at 3:15 o'clock. The board will meet in regular session on Dec. 6, at which time the special committee appointed today will submit its report.

AURORA MAYOR STIRS THINGS UP FOR POLICE

HISSELF

OUSTED CHIEF GOES TO COURT

Aurora, Nov. 10—"Genial Jim" Harley, companionable and approachable merchant who only a few months ago had no idea he would ever be mayor of Aurora, today is ruling the city with a rod of iron and is finding a keen enjoyment in giving battle to powerful forces contending with him, he says. He is at once mayor, chief of police and a "cleanup" crusader. He believes he is doing that which the people wish done and, regardless of feeling, opposition and heartburnings, is proceeding steadily in the work he feels is outlined for him.

In his determined efforts to forward his program he has discharged his chief of police and police and fire commissioners, had a captain suspended and revoked the license of the White Front saloon—a renegade known as a hobo hangout. A charge is made that he is acting illegally in his police department up heaval and that his activities grow out of the raiding of a gambling joint run by one of his political workers, but he is undeterred.

Six months ago "Jim" Harley became mayor of Aurora. He had held no office before and had not been active in politics. But in his campaign for mayor he had pledged himself to "clean house" and at no time after he assumed office, he stated yesterday, has he lost sight of the promise.

Changes he deemed desirable for the best interests of the city he made gradually, he says. He was opposed in certain moves by a council

Practical Courses Of Study In Rural Schools Of County

Pupils Of Several Country Schools Find New Studies Beneficial

The schools in many of the rural districts are adding a practical course to their courses of study, which is meeting with hearty approval by the pupils. At Allen's Grove school in district 154, Willow Creek township, located about four miles northeast of Pawpaw the board of trustees have installed a manual training table and a complete set of working tools for the boys while a course in sewing and a sewing machine has been installed for the girls. They also have an oil stove and at noon hot lunches are served and the girls take turns in assisting in preparing them. The school is taught by Miss Fay Wright of Rolla, a graduate of the domestic science department of the state normal school at DeKalb. Other schools are noting the great success the Allen school is making with the added course and they are now adding similar courses.

FIRE DESTROYED BIG STEEL MACHINE SHOP

BETHLEHEM STEEL CO. SUFFERED
THREE MILLION DOLLAR
BLAZE TODAY.

(Associated Press)

South Bethlehem, Pa., Nov. 10 — Fire early today almost completely destroyed No. 4 machine shop of the Bethlehem Steel Co., the only skeleton building standing. It was recently built, replacing one destroyed in a former fire, and equipped, cost \$3,000,000.

Eight hundred guns, valued at several million dollars, were in process of manufacture for the United States, England and the allies.

The structure contained more than 1,000 machines. The night shift of 800 men was at work at the time of the fire, which is said to have started from a spark from an electric lamp which exploded, falling into some oil.

Teach Our Children 'Sanitary Preparedness' Says Specialist

(Associated Press)

Dallas, Tex., Nov. 9—"Sanitary Preparedness," the subject of an address tonight by Dr. Rupert Blue, surgeon general of the Public Health service, before the Southern Medical Association, was defined as "the maintenance of the body of man on a war footing against disease." It was further described as a condition in which "an able bodied, vigorous society, clothed in the armor of hygienic knowledge and fortified by adequate sanitary defenses, is equally able to withstand the shock of arms and the continued strains of the occupations of tranquility."

Dr. Blue said: "The sanitary preparedness of a nation means not only the health of the fighting units, but of the mothers who are to bear them, and of the civilians upon whom both in time of peace and of war the military forces must depend for food and clothing and the weapons with which to fight. Community health is, therefore, the all important prerequisite, and in order that we may have military preparedness we must first of all

GOVERNOR, SHERIFF, JUDGE IN TANGLE OVER SLAIN CATTLE

EACH MAY BE CITED FOR CONTEMPT IN MRS. DURAND'S CASE.

WAS WOMAN FIRED UPON?

Owner of Prize Stock Claims Deputies Shot at Her Teusday.

The slaughter of Mrs. Scott Durand's herd of Guernsey cattle yesterday at Crabtree Farm, which she valued at \$40,000, by armed men under protection of Sheriff Elvin J. Griffin of Lake county, threatens a tangle of the executive and judicial fabric of the state government.

The fact that Mrs. Durand declares a deputy sheriff fired thrice at her and the further fact that an injunction forbidding the slaughter had been issued, complicates the situation.

Tangle Involves These.

These are involved:

Governor Dunne, who ordered the sheriff to disregard the injunction.

Sheriff Griffin and his deputies who defied the circuit court of Lake county in obeying the governor.

State Veterinarian O. E. Dyson, members of state veterinary board, B. F. Shanley, I. F. Brown and R. M. Patterson, and their assistants, who did the killing.

Judge Claire C. Edwards, the circuit court judge of Lake county, who issued the injunction Saturday after the state supreme court had nullified a previous one.

Supreme court of Illinois.

History of Trouble.
Chronologically this has been the course of events:

While the supreme court is deliberating on the validity of Mrs. Durand's injunction to prevent the slaughter of her herd, which is said to have foot and mouth disease, the state authorities agree with her not to kill the cattle until a commission of five determines the condition of health of the cows.

The state veterinarian, ignoring his own men, reports that C. J. Marshall of Pennsylvania and J. R. Moller of the federal bureau of animal industry refuse to serve on the commission, so it can't be formed.

The high court finds the injunction void. The state informs Mrs. Durand that her stock will be slaughtered.

Issues New Writ.

Judge Edwards issues a new injunction on new grounds. That her herd is free from disease and not amenable to law.

Governor Dunne writes Sheriff Griffin to ignore the injunction and help the veterinarians kill the herd.

Mrs. Durand has been told by Judge Edwards that Sheriff Griffin will deputize her workmen to help defend the cattle. Sheriff Griffin, however, deciding to stand by the governor's orders, goes to her farm and holds her a prisoner in her own home while Drs. L. H. Coulson and A. G.

have sanitary preparedness. "The first step in the creation of sanitary preparedness is to teach the citizens the value of a sound body. If, upon the plastic mind of the school child the simple truths of sanitation are impressed, we will gradually create a better people in which sanitary living is a habit. If by child hygiene we produce better and stronger men and women, these in turn will have learned that mating with the weak and defective produces weak and defective children. Thus we will have a practical eugenic betterment.

"It may truly be said that the fate of kings and nations has frequently depended upon so minute a thing as the typhoid bacillus, or the plasmodium of malaria. We are able by the use of typhoid vaccination to control the one, and by anti-mosquito measures to prevent the other, but until the people of our country have learned the lessons of sanitation it will not be possible to eliminate either disease, or to maintain a citizenship the

PNEUMATIC TIRES.

The pneumatic tire is the turkeytire to get back on the rim and become fat and useful again that the automobilist uses the rich, redolent words which clog up the adding machine in the Recording Angel's office, and has compelled him to do away with the girl angels in that department.

Automobile tires not only have punctures, but blow-outs. A blow-out is a \$45 explosion with apoplexy trimmings. Tires also have creeps, skids, burns, blisters, slow leaks and necrosis of the fabric. Any one of these disorders will strand a \$5,000 touring car full of \$6,700,000 worth of prominent citizens fifteen miles from lunch. In fact, an automobile is as unhealthy as an imported pup, and the man who has to watch over four of them is generally too busy to pay much attention to politics. The genius who will invent an automobile with only one tire will ascend to fame and riches in a large magnificent spiral.

Tires frequently show almost superior intelligence. A chauffeur may get hopelessly lost, but a tire always knows the exact spot on every road which is farthest from a repair shop, or a lunch counter, and does its exploding there. Moreover, tires are excellent judges of time. A tire will stand sound and healthy in a garage for three weeks, waiting until its owner has started for the place in a great hurry to take a ride. Then it will burst with care and thoroughness. Automobile tires have made people happen, and rich, but not for long. Sooner or later, every man who sells automobile drivers, derelicts and blasting powder, and must put a patch on the bile tires buys an automobile him- inner tube. It is while persuading the self.

PLAYERS SHOT CRAPS COACH TOOK ACTION

PRINCETON HIGH SCHOOL BOYS
KEPT FROM PLAYING AT
FREEPORT.

COACH FORFEITED THE CONTEST

Freeport Standard: The gentle pastime of "craps" has probably saved

season. Coach Skinner, who was at the school during the first part of the season, resigned on account of the athletic conditions at that school. It was said that there were several members of the squad who were "agitators" and who absolutely refused to obey any orders which the coach would give. A few weeks ago one of these men was dismissed from the team and also from the school. His parents intervened and he was finally taken back, but not before he had apologized for his conduct and apparently in good faith promised that he would mend his ways. Coach Graves took him at his word, but said that in the future the players would have to walk the chalk line in every respect. Last Saturday two of the smokers were caught smoking cigars, but this fact was overlooked by the coach temporarily. He gave orders, however, that on the trip to Freeport there should be no gambling, no smoking and no debauchery of any sort.

Last evening he saw that all of the men went to bed early, but discovered that after he left two of the boys called each other up over the phone. The coach listened to their conversation from the office and finally butted in on them. This morning the boys were taken to the sample room where they listened to a chalk talk, and afterwards were told to go to their rooms and get a little rest. Shortly after they went upstairs the coach followed them and walked into a stealthy crap game. Five of the string were playing. This was too much for the coach to stand and he immediately decided that the players should be sent back to Princeton without having played in Freeport.

That decision meant that the Princeton Athletic association would lose about \$150 and that the Freeport association would lose the profits from the game. Coach Graves, however, felt that he was in the right. As he was talking about the situation this afternoon in the hotel, a traveling man stepped up to him and congratulated him upon the stand he had taken, saying that he thought it was the only proper thing that could have been done. Coach Dougherty, however, felt that the Princeton coach should have waited until his return to Princeton before disciplining his players.

Coach Graves was very emphatic over the conduct of his men and was authority for the statement that the only thing they were strong at was "shooting craps" and a few other forms of debauchery.

RELIEVES THE WORST CASES OF CATARRH

Think "Hyomei" the Most Wonderful Treatment for Catarrh Ever Discovered.

Do not try to cure catarrh by using sprays and lotions; it cannot be cured in that manner. The only way in which this too common disease can be fully relieved is through a direct application to the affected parts that will kill the bacilli of catarrh and prevent their growth.

Breathing the air of Hyomei is the only known method of treatment that can really accomplish this. It is the simplest, most pleasant and probably the most reliable treatment for catarrh that has ever been discovered.

The complete Hyomei outfit is inexpensive and consists of an inhaler, dropper and sufficient Hyomei to last several weeks. This will effect instant relief in ordinary cases, but for chronic and deep-seated cases of catarrh, longer use may be necessary, and then an extra bottle of Hyomei can be obtained for a trifling sum. It is not alone the best (it might be called the only) method of treating catarrh, but it is also the most economical.

Rowland Bros. have so much confidence in the power of Hyomei to relieve catarrh, that they will for a limited time, sell this medicine under their personal guarantee to refund the money if the purchaser can say that it did not benefit.

Reception for Pastor

The members of the Methodist church in large numbers and all the pastors of the city were present last evening at the reception tendered by the Methodist church to its new pastor, Rev. E. C. Lumsden, and his family.

The reception furnished a most enjoyable opportunity to meet the new pastor and his family and evidenced the bond of friendly feeling that unites the Dixon churches. A short but pleasing program was given in the main auditorium of the church, which was decorated in festoons of red, orange, and gold crepe paper, and with banks of palms.

In the receiving line were Rev. and Mrs. E. C. Lumsden, Mr. and Mrs. Herbert Scott, Mr. and Mrs. L. B. Neighbour and Mr. and Mrs. E. C. Smith.

E. E. Wingert gave the welcoming address in behalf of the members and friends of the church to the pastor and his family, while Rev. A. J. Holland welcomed Mr. Lumsden to the brotherhood of Dixon pastors. Mr. Lumsden responded in a pleasing address. A beautiful vocal solo by Mrs. L. E. Edwards and music by the Sunday school orchestra, under the leadership of W. H. Smith, closed the program. The orchestra also played throughout the evening in the church parlor, which had been fitted up as a reception room. There, too, the festoons of crepe paper in red, gold, and orange were used together with the effective banking of palms. A table, placed in the center of the room, from which the refreshments were served in the course of the evening, was graced by a basket bearing a large bouquet of chrysanthemums. The refreshments of cream and cake were served by a committee in charge of Miss Bess Decker, Mrs. G. P. Powell had charge of the committee on decorations.

YOU CAN'T FIND ANY DANDRUFF, AND HAIR STOPS COMING OUT

Save your hair! Make it thick, wavy, glossy and beautiful at once

Try as you will, after an application of Danderine, you can not find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy. Just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair as pretty and soft as any—that it has been neglected or injured by careless treatment. A 25-cent bottle will double the beauty of your hair.

NOVEMBER 10 1915

OUTLINES G. O. P. FIGHT.

The republican national committee will meet in Washington December 14 to select a convention city and begin mobilization for 1916. Chairman Charles D. Hilles made this announcement last week and indicated the main lines along which the campaign to restore the republican party to power will be waged. They are:

First—An attack upon the democratic tariff.

Second—Criticism of the Wilson administration's handling of foreign affairs, both in Mexico and in Europe.

Third—Charges that democracy has failed to keep its promise of an economical administration and has failed to keep other 1912 platform pledges, including the declaration in favor of a single term for the president.

Fourth—Attacks on the administration's government ship bill, and other administration measures.

By the time the national committee assembles the presidential campaigns of the numerous candidates for the republican nomination should be well under way, Hilles said.

"There is no lack of interest in the 1916 presidential race right now," said the republican chairman. "That is, the interest compares favorably with that of four years ago. In some of the states having 'native sons' entered in the race things are getting lively.

"It is true that the situation this year with respect to republican presidential candidates differs materially from that in the last two or three decades. Out of a group of presidential possibilities at this time there is no one man or two or three men who stand out as leaders in the race throughout the country."

Chairman Hilles' attention was directed to reports that in many states former progressives were returning to the republican party with the avowed purpose of forcing the nomination of Col. Roosevelt by taking advantage of the large field of candidates that would be arrayed against him.

"No such reports have reached me," he said, "and there is no evidence that I know of to substantiate them."

"Do you think it would be possible for Col. Roosevelt to capture the republican nomination?" he was asked.

"That is a possibility I wouldn't care to discuss," he replied.

Chairman Hilles said he was positive former President Taft, whose secretary Hilles was, would not consider entering the lists for the 1916 nomination.

Though believing the ill-feeling of southern cotton growers over the administration's foreign policies may cost the democratic nominee votes at the next election, Chairman Hilles entertains no rosy dreams of breaking into the democratic south.

"The south doesn't vote the republican ticket," he said. "The opposition of the cotton men will make itself felt in another form. They will help elect men to congress who will oppose democratic measures, but I don't believe the administration's attitude toward Great Britain will cost President Wilson—if he be the next democratic nominee—any votes in the electoral college."

DIXON MASONS WERE VISITORS IN ASHTON

ATTENDED INTERESTING MEETING IN ASHTON TUESDAY EVENING.

Fifty-two of the Masonic brethren of this city went to Ashton Tuesday evening and were guests of Ashton lodge No. 531, when the third degree was conferred upon a candidate. The Dixon officers had charge of the work and following it a sumptuous supper was served in the banquet room. Fifteen or twenty Rochelle Masons were also present as well as others from neighboring towns. The trip was made by automobile and the Dixon men arrived home about midnight.

The Ashton lodge room is one of the nicest in this locality and would do credit to a much larger city. The old opera house in the Petrie building has been remodelled into a lodge room and the Masonic order by taking a term lease had the room arranged especially for their use. The lodge boasts of a good orchestra among its members and during the banquet hour it rendered a number of selections.

PLENTY OF COAL IN PARIS; PRICE IS HIGH

RESIDENTS OF FRENCH CAPITAL IN NO DANGER OF FREEZING

Paris.—(Correspondence of The Associated Press)—Paris is in no danger of shivering this winter, though it will have to pay rather dearly for its warmth. Monsieur Marcel Sembat, Minister of Public Works assures the public that there will be plenty of coal available and supports his views with a few conclusive statistics.

France consumed 60 million tons of coal a year before the war; 10 million tons of it came from Great Britain and 10 million from Belgium and Germany. The latter markets are closed to her now but her consumption has decreased from 60 million to 40 million tons by reason of the German occupation of the industrial regions of the north and east. Her coal production has diminished in the same ratio, being 20 million tons as against 40 million tons, so she has to depend on Great Britain and the United States for the twenty million tons she lacks.

Coal prices have shown no response to increased receipts. The best qualities are firm at twenty dollars a ton delivered at domicile, while inferior grades and industrial coal bring fifteen dollars a ton. The city gas company profiting from these high prices has supplanted coal with gas in a great many families, furnishing the heaters free of rental.

C. M. SHELTON DIED IN IOWA

Former Resident of This Vicinity Died at Eagle Grove Today.

Dr. W. C. McWethy today received word of the sudden death at Eagle Grove, Ia., this morning of his cousin, Clarence M. Sheldon, formerly of this vicinity. Mr. Sheldon's passing was caused by rheumatism of the heart. Many in Dixon and Palmyra will remember the deceased, as he spent many years here, and his sudden demise will bring forth many expressions of sorrow.

HOPE FOR THE PESSIMISTIC.

Necessity never permits the human race to wait very long for anything. It up and kicks the spirit of invention into greater activity so as to provide all the essentials.

Burbank took the sting out of the cactus plant and made it nutritious food for cattle. Ergo, thousands of acres of land that were once no better than a desert are now producing boots and beefsteak galore.

W. S. Garsed tells me that a Philadelphia company is interested now in converting millions of tons of cotton stalks, hitherto worthless, into valuable white paper. What a triumph that will be if it really makes good!

White paper is eating up forests about as fast as anything you can imagine. One Philadelphia publisher uses more than \$15,000 worth of white paper every day, which represents a great many fallen trees. If old Mother Invention can utilize cotton stalks for paper, it will be a windfall for southern planters and make Gifford Pinchot's job of our national forest protector somewhat less arduous.

Banish all this pother about bread famines, coal famines, leather famines and steel famines. They never come, or if they do the world has learned to use something better.

I learn from a British scientist that the sun is to shine for another nine million years, which insures heat as long as you and I care for it. By the time calfskins fail us for shoes, somebody will have made cotton ones, which they tell us would be better and cost half as much.

Iron may be exhausted, but bless you, big consumers are already using substitutes. Nearly all railroads have stopped building steel bridges and are using stone and concrete. That offsets the greater use of steel for cars—one company reporting that it makes at Altoona a new steel car every time the clock strikes the hour.

Steel cars save the timber in our forests and stone bridges save the iron ore in the ground. If that Philadelphia publisher whom Colonel Louis J. Kolb tells me about hurries along with his sunshine engine we can say au revoir to the coal famine spook.—Philadelphia Ledger.

The failure of the state authorities to stamp out the foot and mouth disease in Illinois is growing into a national scandal and it is freely charged that politics and democratic inefficiency is the cause of the delay and resulting great loss to the people of the state.

Do you know that six weeks will bring us so close to Christmas that it will be mighty uncomfortable for the fellow who has still neglected to do his Christmas shopping? Better begin to think about it now.

They say that sauerkraut will prolong life, if you eat it consistently enough, but it is suggested that a man who will eat sauerkraut to keep alive must be terribly afraid to die.

Mayor Harley of Aurora has "fired" his chief of police, taken charge of the office himself, and is cleaning things up generally in that city.

Dramatic Notes

A special feature production in five acts entitled "The Sins of the Fathers" will be shown at the opera house tonight. The play presents the problem of the biblical injunction, "Verily the sins of the fathers shall be visited upon the children." The celebrated emotional actress, Miss Sarah Adler, plays the leading role. The roaring comedy of "Mr. Flirt in Wrong" and the Animated Weekly, showing the world. Children will not be admitted this evening.

THE PRINCESS.

Tonight the Princess will show a thrilling Centaur feature entitled, "The White King of the Zarus," with Roy Watson and Mona Darkfeather in the leading roles, also the third series of the Stanley pictures showing the adventures of Ada Payne in the African wilds, with thrilling encounters with wild beasts and African natives. The other pictures are "Seeing America First," a travel festival taking us through Washington and its different government buildings. The last reel is a Cub comedy entitled, "Taking a Chance," with George Ovey in the leading role, a story in which Jerry and Hank star in "Uncle Tom's Cabin."

FAMILY THEATRE.

"The Heart of a Painted Woman," a vividly gripping motion picture romance from the studios of the Popular Plays and Players Co., comes to the Family today with Mme. Olga Petrova in the principal part. The story of the play follows:

Selma, the beautiful daughter of poor parents, leaves her home and secures a position in New York as a painter's model. The artist becomes enamored with her beauty. They fall in love with each other but later the artist abandons the model to marry an heiress. Selma, discouraged by her treatment, falls lower in the scale of life and when she reaches the bottom-most strata fascinates young "Spendthrift," who follows her to her home and offers her wealth if she will be his. Selma declines the offer and tells him how differently she would have carved her life had she had his opportunities and wealth and, decided to give her a trial, he presents her with a huge check. Selma then opens a hospital for crippled children. "Spendthrift," in drunken stupor, falls into the clutches of wealth, and in order to rescue him Selma goes back to her former life and a seductive wiles extorts a confession from wealth which exonerates "Spendthrift" and herself and together they begin a new and happy life.

This picture with four new acts of vaudeville will surely make a great program.

great bulk of which is physically fit.

"Unfortunately it seems as though the human race can make sanitary advance only through the bitterness of previous experience, and it is very difficult in the absence of a threat or an epidemic to arouse much interest in sanitary betterment.

"Unconsciously we have been striving toward that end. The decade in which we live has witnessed growth and expansion of all the health forces of our country. The body of the sanitary laws has been revised, amended and extended. Appropriations for the prosecution of sanitary measures have been increased. The sanitary propaganda has been carried to every portion of the United States, and we see men of high attainments adopting the profession of sanitation as life work. The collection of morbidity and mortality statistics has but impressed upon us the necessity for increased work along these lines. The investigations into the causes of communicable diseases and the evolution of means of their control have been such that many of the major pestilences have almost been relegated to oblivion.

Dr. Blue added, however, that the deaths and disabilities from the commoner diseases continue at a high rate with heart diseases heading the list. Of recruits examined for the army and navy in the fiscal year ended June 30, 1914, he said that over 13 per cent were rejected. More than 12 1/2 per cent were on account of heart disease and at least 50 per cent were from wholly preventable causes.

"A large proportion of the causes of rejection," said Dr. Blue, "may be traced to the so-called inevitable diseases. When we realize that practically all of the diseases of childhood are preventable and entirely unnecessary, and when we put this knowledge into practice we will see an enormous decrease in heart disease, rheumatism and nephritis. It will be found also that deafness will be less frequent and that defective vision will be diminished.

"A great trial of arms takes the most physically fit out of the community. It leaves behind the weaker elements, part of whom must be supported by the strongest left behind, who in addition must support the men at the front. Man is an animal of slow growth and relatively long life. It will, therefore, take time to eliminate the weaklings in order that they may not be a factor in the reduction of the efficiency of our nation."

DISREGARD WRIT, KILL PRIZE HERD

(Continued from Page 1)

Gieske kill 57 head of cattle and 13 hogs.

What May Happen.

Whereupon, declare Mrs. Durand's lawyers, Robert S. Iles, Charles J. O'Connor and Clarence Diver, on the one hand, and Attorney General Lucey on the other, one of these eventualities may come to pass:

Governor Dunne, Sheriff Griffin, Veterinarian Dyson and his aids, the deputy sheriffs and the state veterinary board may be held in contempt by Judge Edwards.

They may be named in indictments charging criminal conspiracy as to all of them; assault with a deadly weapon on the part of the deputy sheriffs, assault and battery as to Sheriff Griffin and a deputy, trespass and kindred other charges.

Judge Edwards may be cited to show the state supreme court why he is not in contempt for having issued an injunction on the heels of a ruling by the state's highest tribunal voiding a previous injunction.

Personal injury and property damage suits may be started by Mrs. Durand against all who had a hand in the slaughter.

Here's "Nub" of Case.

The entire question hinges about the moot point:

Did any animal of the herd have the foot and mouth disease?

Was the herd a menace to other livestock there and elsewhere?

Here are two answers to that question:

"My men reported they found two cases of the disease about a week ago," said Veterinarian Dyson.

"There hasn't been a case of the disease in that herd or on the farm for nearly a month; I examined the herd six days ago and it was free from any trace of the foot and mouth disease," declared Dr. Joseph Hughes, the veterinary surgeon who saved the \$2,000,000 prize herd of cattle at the international live stock show last winter by refusing to permit them to be shot, while keeping them in strict quarantine under treatment identical with that used at the Crabtree Farm.

"I will not raise any more cattle," said Mrs. Durand. "I am going to devote myself to vengeance for this act. Sheriff Griffin treated me like a woman of the streets. Three bullets were fired in my direction when I ran toward the barn, not for the purpose of interfering with the slaughter, but to instruct my own men not to resist the deputies."

Judge and Dunne in Hot Words.

"When the sheriff came to the house I thought he was there to defend the herd from slaughter, according to arrangements I had made earlier in the day with Judge Edwards. I could scarcely believe him when he told me he was there not to protect them, but to help kill them. I understand Judge Edwards and Governor Dunne had a very acrimonious conversation over the long distance telephone with reference to the slaughter."

Sheriff Leads Slaughter.

Sheriff Griffin of Lake county, with ten deputies, raided the farm of Mrs. Durand early in the afternoon, made prisoners of the owner and her servants at the point of shotguns and revolvers and shot her prize dairy cattle. This was the report given by Mrs. Durand herself over the long distance telephone. "They even fired at me when I tried to approach the barn," declared the excited woman dairy farmer.

Mrs. Durand Calls It "Murder."

Mrs. Durand declared that the "murderers" had slain her cattle in violation of Judge Edwards' second injunction in the circuit court restraining the state from killing her valuable animals. Sheriff Griffin, she declared, read a notice from Governor Dunne when he reached the farm, but ignored her protest that a second injunction had been granted by Judge Edwards.

While Mrs. Durand and her employees covered behind doors and windows in her home, menaced by the firearms of deputies, the rattle of shots resounded through the barns, and the dying groans and bellows of the cattle. One by one, the sixty prize winning animals were shot down in their stalls.

HUNTERS' POOR LUCK.

In a letter received from Dr. E. A. Sickels and Wm. A. Schuler, who are at Hayward, Wis., reporting that the game is scarce and that on account of the rainy season the lowlands are under water and it is difficult to hunt deer. They have been there about ten days and at the time the letter was written they had shot but one deer. They expect to arrive home by the first of the week.

BIG NINE CHAMPS FACE CRUCIAL TEST

ILLINOIS ELEVEN TO MEET BADGERS IN FINAL GAME AT HOME

With Chicago meeting Minnesota at Minneapolis and Illinois going in to action against Wisconsin at Urbana Saturday, followers of western football will have a good line on the strength of the Big Nine teams for final games on November 20. If Maroons and Illini can land victories Saturday, the Big Nine title will hinge on the battle at Stagg field the following week.

The Badgers went down to defeat before the well played game of the Maroons, 14 to 13, Illinois and Minnesota battled to a 6 to 6 tie at Urbana. So on the result of the previous games these four teams, theoretically at least, appear on a parity.

NO FOREIGN MONEY IN CUBA HEREAFTER

PRESIDENT'S ORDER MAKES ITS CIRCULATION ON ISLAND ILLEGAL

Havana, Cuba.—(Correspondence of The Associated Press): For the first time in years Cuba is free of the annoyance and confusion resulting from the general circulation of various kinds of foreign money. On Nov. 1 there went into effect President Menocal's decree declaring illegal the circulation of any but American and Cuban money. In anticipation of this decree taking effect foreign coins have already disappeared almost entirely from circulation, only a few Spanish dollars being accepted in some of the smaller shops at a heavy discount, the bulk of the silver and gold having been shipped back to Spain.

When the United States undertook the occupation of Cuba, American money was declared to be the official currency, but together with this a vast quantity of Spanish gold and silver and some French gold remained in circulation, varying in value in comparison to official money day to day, nominally in accordance with the laws of the supply and demand, but actually in response of manipulation by hundreds of money changers whose little shops are scattered all over Havana.

Recently a large volume of Cuban silver and gold has been placed in circulation and declared to be official money on par with American currency, and, by the President's decree, this and the American money will henceforward be the only currency recognized in Cuba. This will remove a constant source of irritation to tourists who have heretofore had to deal with a half dozen kinds of currency. The only opposition to the new state of affairs has come from a few Spanish merchants and the money changers whose means of livelihood has disappeared. Incidentally it is interesting that some of the Spanish merchants have shown a disposition to prefer American gold coins to American notes, professing a fear that should the United States become involved in war the notes would suffer depreciation.

Miss Sylvia DuVall went to Chicago this morning for a few days' stay.

majority but was persistent and eventually has accomplished his purposes for the greater part. In the police department he moved to get more policing of the residence districts but took no action against any individual officer, although many of his supporters clamored for a change, a large contingent demanding that Chief of Police Michels be removed.

Saturday night he notified Chief Michels that he had taken over the reins of the police department and the chief, protesting the illegality of the action but wishing to avoid unseemly strife, left the city hall. He will file action in a court of law to establish his legal rights while maintaining that he wishes a public hearing on the whole matter.

Michels Not Enraptured of Office Chief Michels while sincerely believing he is the legal chief of police and that the mayor has no right to remove him without a trial is not enraptured of the office.

Friends to whom he has confided know that he had hoped to yet run down the slayer or slayers of Emma Peterson and Jennie Miller before retiring from office. He has admitted that all the efforts of himself and detectives from other cities he has termed much more able than himself have thus far been fruitless, but he has been hoping that a persistent daily effort would yet lead to the solving of the crimes and a completion of his work.

NEW AUTO DEFLECTOR LENS

Dixon Motorists Show Interest in New "Nightlight" Scheme

A number of Dixon autoists have become interested in the past few weeks in the accessory known as the Osgood Deflector Lens. This is a new device to supplant the dimmers which have been used for the purpose of enabling autoists not to blind each other.

The Osgood lens is not a dimmer; it is a diffuser and it shoots the light on to the road below the eye level of approaching cars or pedestrians. It kills the glare without dimming the light.

Hopes Women Will Adopt This Habit As Well As Men

Glass of hot water each morning helps us look and feel clean, sweet, fresh.

Happy, bright, alert—vigorous and vivacious—a good clear skin; a natural, rosy complexion and freedom from illness are assured only by clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place.

Instead of the thousands of sickly, anemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nerve wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking, each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it. Wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

NOTICE TO CONTRACTORS.

No. 176.

Sealed proposals addressed to the Board of Local Improvements and the Council of the City of Dixon, Illinois, and endorsed proposals for the furnishing of the labor and materials for and the construction of a cement concrete pavement on East River Street in the City of Dixon, Illinois, from the west line of Ravine Avenue Easterly to the east line of the South West Quarter of Section 33, Township 22, Range 9, the same being the east boundary line of said City of Dixon, Illinois, as provided for in Local Improvement Ordinance Number 176, Series of 1915 of said City of Dixon, will be received by the Board of Local Improvements and the Council of the City of Dixon, Lee County, Illinois, at the City Clerk's Office in said City of Dixon, until 10 o'clock in the forenoon on Tuesday, the 23rd day of November, A. D. 1915, and will be publicly opened by the Mayor of said City of Dixon, (who is President of the Board of Local Improvements) at a joint meeting of said Council and Board of Local Improvements to be held in the Council Chambers in the City Hall in said City of Dixon at 10 o'clock in the forenoon of said day. Said bids shall be opened by the Mayor in the presence of a majority of the Council and shall remain on file in the Mayor's office and be open to public inspection for at least forty-eight hours before an award of said contract is made to any competitive bidder. After the expiration of forty-eight hours, as stated above, said Council and Board of Local Improvements shall meet in joint session and determine the most advantageous bid for the City of Dixon and publicly declare the same.

The work for which said tenders are invited is the construction of 988.3 cubic yards of filling compact in place; 1730 linear feet of cement concrete curbing 6" wide at top, 5" wide at bottom and 20" deep on foundation of gravel or crushed rock 12" wide and 6" deep; 2300 square yards of cement concrete pavement with thick expansion joints on foundation of gravel or crushed rock 3" deep when thoroughly compacted into place as provided for in Local Improvement Ordinance No. 176, Series of 1915, of the City of Dixon, Illinois. Each bid for this improvement must be accompanied by certified check or cash for an amount not less than ten per cent of the aggregate of such proposals. All certified checks must be drawn on some responsible bank and must be payable to the order of the President of the Board of Local Improvements in his official capacity. No bids will be considered unless accompanied by such certified check or cash.

Said cash or certified checks will be held by said Board of Local Improvements until all the bids have been canvassed and the contract has been awarded and signed. The return of such check or cash to the successful bidder being conditioned upon his appearance within fifteen (15) days after having been notified of the award having been made to him or them, accompanied by his or their bondsmen and executing a contract with said Board of Local Improvements for the completion of the work so awarded and giving a bond satisfactory to the Board of Local Improvements and Council of the City of Dixon.

A bond of \$5,000.00 will be required conditioned for the fulfillment of the contract in accordance with the ordinance and specifications and to the satisfaction of the said Board of Local Improvements and Council of the City of Dixon. All proposals must be made on blanks which will be furnished bidders at said City Clerk's Office.

Payment for the work for which said tenders are invited is to be made in cash or bonds, payable when the contract is completed and the work accepted by the Board of Local Improvements and Council of the City of Dixon, bonds to draw interest at five per cent per annum. No bids will be considered unless the party making it shall furnish evidence satisfactory to said Board of Local Improvements and Council of the City of Dixon of his experience and ability in this class of work and that he can control sufficient capital to enable him to successfully prosecute the same in case the contract shall be awarded to him.

Bidders will examine the ordinance, maps, plats, plans, profiles and specifications and also the locality in which said work is to be done and judge for themselves of all the circumstances and surrounding conditions affecting the cost and nature of the work. Specifications for said work are on file in the Mayor's office, and may also be seen at the office of the City Clerk of the City of Dixon from and after this date.

The person to whom the contract for the construction of said improvement is awarded shall, before the commencement of work under such contract, provide ample, suitable and valid insurance policies to provide against and pay all claims for injury to persons or property arising under the laws of the State of Illinois, in the prosecution and construction of said work.

The Council and Board of Local Improvements reserve the right to reject any and all bids.

Dated at Dixon, Illinois, this 9th day of November, A. D. 1915.

EAT BIG MEALS! NO SOUR, ACID STOMACH INDIGESTION OR GAS

"Pape's Diapiesin" is quickest, surest stomach relief known—Try it!

Try it! Pape's Diapiesin will digest anything you eat and overcome a sour, gassy or out-of-order stomach surely within five minutes.

If your meals don't fit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is a sign of indigestion.

Get from your pharmacist a fifty-cent case of Pape's Diapiesin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches, dizziness or intestinal griping. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapiesin is a certain cure for out-of-order stomachs, because it takes hold of your food and digests it just the same as if your stomach wasn't there.

Relief in five minutes from all stomach misery is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapiesin" to keep the entire family free from stomach disorders and indigestion for many months. It belongs in your home.

ILLINOIS MAKES U. S. SHELLS

Large Munitions Contract is Awarded Union Tool Company.

West Chicago, Ill., Nov. 10.—A contract for \$250,000 worth of six-inch and three-inch shells for the United States navy has been secured by the Union Tool company of West Chicago. A large additional force of mechanics will be employed by the company. The contract is renewable at the end of one year, making the total amount \$500,000.

It is believed possible that the West Chicago concern will permanently engage in the manufacture of munitions for the government, as this is a favorable distributing point for products of all kinds.

A Message To Women

Those of Middle Age Especially.

When you have found no remedy for the horrors that oppress you during change of life, when through the long hours of the day it seems as though your back would break, when your head aches constantly, you are nervous, depressed and suffer from those dreadful bearing down pains, don't forget that Lydia E. Pinkham's Vegetable Compound is the safest and surest remedy, and has carried hundreds of women safely through this critical period.

Read what these three women say:

From Mrs. Hornung, Buffalo, N. Y.

BUFFALO, N. Y.—"I am writing to let you know how much your medicine has done for me. I failed terribly during the last winter and summer and every one remarked about my appearance. I suffered from a female trouble and always had pains in my back, no appetite and at times was very weak.

"I was visiting at a friend's house one day and she thought I needed Lydia E. Pinkham's Vegetable Compound. I took it and have gained eight pounds, have a good appetite and am feeling better every day. Everybody is asking me what I am doing and I recommend Lydia E. Pinkham's Vegetable Compound. You may publish this letter if you wish and I hope others who have the same complaint will see it and get health from your medicine as I did."—Mrs. A. HORNUNG, 91 Stanton St., Buffalo, N. Y.

Made Me Well and Strong.

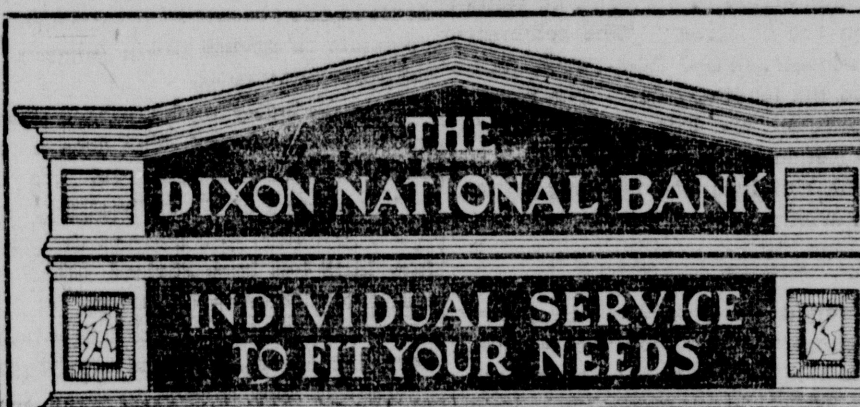

MACEDON, N.Y.—"I was all run down and very thin in flesh, nervous, no appetite, could not sleep and was weak, and felt badly all the time. The doctors said I had poor blood and what I had was turning to water. I took different medicines which did not help me, but Lydia E. Pinkham's Vegetable Compound made me well and strong, and I am recommending it to my friends."—Mrs. FRED CHACE, R. No. 2, Macedon, N.Y.

The Change of Life.

BELTSVILLE, Md.—"By the use of Lydia E. Pinkham's Vegetable Compound I have successfully passed through a most trying time, the Change of Life. I suffered with a weakness, and had to stay in bed three days at a time. Lydia E. Pinkham's Vegetable Compound restored me to perfect health, and I am praising it for the benefit of other women who suffer as I did."—Mrs. W. S. DUVALL, Route No. 1, Beltsville, Md.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

YOUR VALUABLE PAPERS

YOU probably have valuable papers, such as policies, stocks, bonds, deeds or other papers, that you want to feel sure are safe from loss, by fire or theft.

These should not be left around the house or office, but placed where they are perfectly safe, and where you can put your hand on them, when wanted.

We have special facilities for taking care of these for you at a very nominal expense.

PROPOSALS FOR CONCRETE TUNNELS AND ACCESSORIES AND STORM WATER AND SANITARY SEWERS AND ACCESSORIES.

STATE OF ILLINOIS. BOARD OF ADMINISTRATION. Springfield, Illinois, November 4, 1915.

Scaled proposals will be received by the Board of Administration in its office in the Capitol Building, Springfield, Illinois, up to three o'clock p. m., Monday, November 29, 1915, and then and there publicly opened for constructing concrete tunnels and accessories and storm water and sanitary sewers and accessories on the site of the State Epileptic Colony, near Dixon, Illinois.

The plans for the proposed tunnel work are shown in solid lines, and future tunnel work are shown in dotted lines. Bidders are to submit bids on all of the proposed tunnels only, including cast iron basins, man holes, vents, lamp bases, openings for pipe entrances, number of conduits in wall, pipe anchor inserts, pipe support inserts in roof, and pipe support inserts in wall.

Proposals will also be received at the time stated above for sanitary and storm water sewers, and tunnel drain connections, connecting the various buildings as shown on the plans and specifications.

Bids are to be submitted separately on the sewer work, and tunnels, and bids are also invited on doing all sewer and tunnel work. Plans and specifications will be furnished upon application to Hon. James B. Dibelka, State Architect, 130 North Fifth Avenue, Chicago, Illinois.

The Board of Administration reserves the right to reject any and all bids.

20 Holstein Bulls 20

Quarantine regulations have for the past year prevented the shipment of breeding cattle from Illinois to other states, consequently we have accumulated these bulls. We are short of room for younger animals coming on, and must sell these older bulls. They will run in age from 12 months to 24 months. Most of them are by our great herd sires. They are the kind we usually receive from \$300 to \$500 apiece for at private sale. This is a chance of a life time to buy a splendidly bred bull at your own price.

A well bred Holstein bull bred to ordinary cows will produce heifers that on the average will give TWICE as much milk as their mothers.

There is an unlimited demand for grade Holstein cows at from \$100 to \$150 apiece.

No investment can be made that will pay such large returns as a good Holstein bull.

Remember we have bred and developed the CHAMPION HEIFER of Illinois. A number of her three-quarter brothers are included in this sale.

Buy good—breed better.

8 Duroc Jersey Boars.

Free lunch at noon. Sale immediately after.

Terms: Cash or six months or one year's time on approved notes bearing 6 per cent interest from date.

ARE YOUR KIDNEYS WELL

MANY DIXON PEOPLE KNOW IMPORTANCE OF HEALTHY KIDNEYS.

The kidneys filter the blood. They work day and night. Well kidneys remove impurities. Weak kidneys allow impurities to multiply.

No kidney ill should be neglected. There is possible danger in delay. If you have backache or urinary troubles,

If you are nervous, dizzy or worn out, Begin treating your kidneys at once;

Use a proven kidney remedy. None endorsed like Doan's Kidney Pills.

Recommended by thousands. Proved by Dixon testimony.

W. Walford, blacksmith, Peoria avenue, Dixon, says: "I used to have quite a lot of trouble with my back and kidneys. The kidney secretions were irregular in passage. My back ached, too. I used several boxes of Doan's Kidney Pills and the pains left my back and my kidneys became regular in action." (Statement given May 21st, 1912.)

NO TROUBLE SINCE. On January 21st 1915, Mr. Walford said: "I have had no kidney trouble at all for the past few years and I give the credit of my cure to Doan's Kidney Pills."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Walford had. Foster-Milburn Co., Props., Buffalo, N. Y.

The BARGAIN COUNTER

Merchants to Their Patrons

\$5,000 OR 100 ACRES TO BE GIVEN AWAY

To buyer of 100 acres under plow, of better than average good soil, for this section, with good set of improvements worth \$5,000, including 8 nicely arranged rooms, with concrete foundation and cellar to hold 1,000 bushels of potatoes. Large Hip Roof Barn with hay fork and litter carriers large machine sheds and other buildings, such as granary, corn cribs, etc., with windmill and tank.

Price \$100 per acre, 1-3 or more cash and at this price it is a better bargain than can be found between here and St. Cloud, but with it we give deed to 100 acres first class pasture and hay land, worth \$50.00 per acre. This is the most desirable 200-acre bargain in this part of the state. Come and see it.

BEST MINNESOTA BARGAIN.

About 625 acres of the best land in this state as smooth as a floor and cut on the north by good river (full of fish), and cut on the south by big ditch, just completed, and this ditch is about eight feet deep and shows the best of good yellow clay clear to the bottom. The top soil is the best black sandy loam to be found in Minnesota. The water is pure, and never-failing well on the place, which is occupied by tenant. This farm is as smooth as the best of the Red River Valley it should not be confused with same, as this is near the highest point of land in the state.

There is fair house and also other buildings with some fenced in pasture and also some field in crop, and all the land desired for crop can be broken with tractor and as this is new land one crop of flax will pay for it at the bargain price of \$25 per acre.

Five thousand dollars cash will handle the deal and it is near direct line to Duluth, which is the best market in the Northwest.

DAIRY FARM FOR SALE.

I have a 110 a. farm in Rock County, Wisconsin 10 miles from the Illinois line, 1/2 mile from village on two railroads, eight miles from Janesville and eleven from Beloit, that must be sold by December 15th. The best offer will get it. This farm is in the Million Dollar dairy, tobacco and sugar beet section and near the condensery, creamery and cheese factory. Level, good soil, wove wire fence and first class buildings, including ten room house, horse, cattle and tobacco barns, hen and hog houses, silo, etc., etc. \$5500 at 5 1/2 % may remain. Might accept some property as part payment. If you are willing to locate in the Wisconsin dairy belt and save \$50 to \$75.00 an acre over Illinois prices look this up. CONFESSES SLAYING IN 1879

Killing of James Kirlin at Riverton, Ill., Admitted by Assailant.

Springfield, Ill., Nov. 10.—Benjamin A. Miller, slayer of James Kirlin of Riverton, in 1879, gave himself up to justice at Jena, Ill. He will be returned here for trial.

None of the men who saw the killing of Kirlin is alive today, relatives say. The only testimony that could be obtained against the aged man who turned himself over to the law is his own confession.

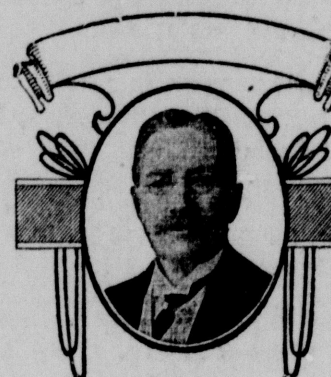

Bryan's Book Is Excluded.

San Francisco, Nov. 10.—William J. Bryan's latest book, "British Rule in India," which has been given a wide circulation in his recent peace propaganda, was ordered excluded from the mails in India by Postmaster C. W. Fay.

Ousted Police Chief Again.

Omaha, Nov. 10.—Joseph Manney, fifty-four, recently deposed as chief of police of Benson, a suburb, was shot and killed at the Douglas county fair ground, where he was night watch man.
